IMPROVED SURGEON'S TRUSSES, for the radical cure of Hernia, or Rupture, by HEBER CHASE,

The committee of the Philadelphia Medical Society, or the investigation of the radical cure of Hernia, ob

"Fully impressed with the extreme caution required in forming conclusions concerning changes of structure taking place in parts of the body concealed, not only by the integuments, but by tendinous matter and fascia, and where the nature of the disease renders the opportunity of post mortem examination exceedingly rare, your committee has been desirous to avoid that blameable haste in for sale or rent, on liberal terms, the white lead quently given to plausible but ingenious methods of treatment a temporary reputation, to the abuse of public confidence and the injury of the profession, by granting to empiricism the weight and influence of great names.

"The instruments of Dr. Chase have effected the per-

manent and accurate retention of the intestines in every case of hernia observed by the committee, without material inconvenience to the patient, and often under trials more severe than are usually ventured upon by those who wear other trusses—trials which would be imprudent with any other apparatus known to the committee
"The committee are induced, by the foregoing conclu-

sions, to recommend, in strong terms, the instruments of Dr Chase to the confidence of the profession, as the best known means of mechanical retention in hernia, and as furnishing the highest chances of radical cure.

"They have no hesitation in saying that, were they in-dividually affected with this terrible disease, they would resort to this method of treatment, with the triple view of securing their comfort, safety, and ultimate chance of recovery.

REYNELL COATES, M. D., WM. ASHMEAD, M. D., ISAAC PARRISH, M. D.,

THE HAIR! THE HAIR!

THE greatest ornament to the human body is a splendid head of hair. It has recently been discovered that the genuine Buffalo's Oil is a sovereign temedy for baldness, prevents the hair from coming off, promotes the growth, continues the luxuriance, and improves the beauty. It is far superior to any other animal or vegetable oil, and in case of fever, where the hair becomes dry and begins to fall off, there is no application more effectual in restoring its beauty and rendering it in a healthy state.

It is put up at a low price, (37 1-2 cents) that all classes can have access to it. None genuine unless put up in flat bottles, with Hair Oil impressed in the glass. Also, to prevent imposition, it will be signed by m. Brown, 481 Washington, corner of

pleasant and efficient medicine ever discovered. In addition to their being the most agreeable and efficient cathartic that can be used, in Dyspepsia Constipa-tion, Kheumatism, Headache, Worms, Inflamation of the Bowels, Liver affections, Bihous Stomach, Colds, and the commencement of Fevers; Sea sickness, &c. their operation is powerfully directed to the glandular system, removing all electroctors of the glandular haracar sites. removing all of structions of the glands wherever situated; Sepirosities and Scrofulous taints, in their incipient orms; and if persevered in adording all reasonable relief

in cases of confirmed and neglected scrofula.

Taken either a short time before or after exposure, they render the system less liable to contract contagious or epidemic diseases, an should be resorted to by persons residing in low and marshy situations, or when travell ing, or exposed to contagion. Also persons attending the sick, who by long watching and fatigue, or exposure to the effluvia of the sick room, become debilitated, and lose their appetite, will find great assistance from these Pills, in r novating and purifying the syst m, and restor-ing the functions to a healthy state. Persons debilitated by intense and long application to business or study, and those also of sedentary habits, will derive great benefit from an occasional use of them

For that congested and deranged state of the system which occurs in the autumn and commencement of winter, these Pills are particularly applicable, in preventing rheumatism, coughs, congestion of the lungs, &c. and have prolonged many a life, which otherwise would have been a sacrifice to the changes of seasons.

Be particular to inquire for Dr. G. R. Phelps, and see

To married females, whose expectations of the most eminent physicians in the United States, and many mothers can likewise testify to their extraordinary efficacy. These pills have gained the sanction and approbation

the following diseases: Suppression, irregularity or retention of the menses, fluor albus, chlorosis or green sickness, costiveness, gravel, incontinuance of urine, nervous affections, hysterics, prolapsus uteri, or falling of the womb, and piles; also, pains in the side, chest, limbs, ings; agitation; anxiety; bad dreams, and spasms. This medicine is acknowledged to be one of the most valuable ever discovered as a purifier of the blood and fluids; it is superior to sarsaparilla. whether as a sudorific or alterative.

The Blood has hitherto been considered by Empiricks and others, as the great regulator of the human system, and such is the devotedness of the adherants to that erroneous doctrine, that they content themselves with the simple possession of this tallacious opinion, without enquiring into the primary sources from whence Life, Health and Vigor eminate, and vice versa, pain, sickness, isease and death. Not so with Dr. Hunt, whose extensive records and particular seconds. sive research and practical experience so eminently qualify him for the profession of which he has been one of the most useful members. He contends—and a moments reflection will convince any reasoning mind of the correctness of his views—that the stomach, liver, and associated organs are the primary and great regulators of health, and that the blood in very many instances is dependent on these organs, and that unless medicine reaches THE ROOT OF THE DISEASE, the superficial anotynes usually prescribed, serve but as foils to cover the ravages of deeprooted maladies. Under these convictions, at the expense of years of close application, the doctor has discovered a medicine whose searching powers are irresistible, and in prescribing, it is with knowledge of its being a radical cure in the various diseases already enumerated, even if applied in the most critical cases, but he does not prefend to ascribe to HUNT'S BOTANIC PILLS a supernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up, HUNT'S BOTANIC PILLS have never been known to fail in effecting two very gratifying results, that of raising from the bed of sickness and disease those who have tested their efficacy, and thus amply rewarding Dr. Hunt for his long and anxious study to attain this perfection in the healing art
